PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with strong foundations in Java, Data Structures, and DBMS. Hands-on experience through internships and academic software development projects, with a strong interest in full-stack development and solving real-world problems. Demonstrates strong analytical thinking, problem-solving, collaboration, and time management skills, and is eager to contribute to high-quality software development.

EDUCATION

K. Ramakrishnan College of Engineering

Bachelor of Engineering - Computer Science and Engineering; CGPA: 7.76

Trichy, India

2023 – Present

St. Little Flower Matriculation Higher Secondary School

Higher Secondary Certificate (HSC) – 90.0%

Trichy, India

2021

St. Little Flower Matriculation Higher

Secondary School Leaving Certificate (SSLC) – 88.0%

Trichy, India

2019

TECHNICAL SKILLS

Programming Languages: Java (Core Java, OOP, Collections, Data Structures, Exception Handling)

Frontend Development: HTML5, CSS3, JavaScript, Figma

Database Management: MySQL, SQL

Tools & DevOps Practices: Git, GitHub, VS Code, Eclipse IDE

Soft Skills & Competencies: Team Collaboration, Time Management, Analytical Problem Solving, Code Reviews

INTERNSHIP EXPERIENCE

Web Development Intern

March 2025 – April 2025

SkillCraft Technology

Remote

- Engineered responsive, client-facing front-end components using HTML5, CSS3, JavaScript ensuring cross-device compatibility and seamless user experience across mobile and desktop interfaces.
- Collaborated within an Agile team environment utilizing Git and GitHub for version control, demonstrating disciplined time management to deliver sprint milestones ahead of schedule.
- Integrated dynamic UI components with backend improving page rendering speed and interactivity.

PROJECTS

Enterprise Job Board System | Java, OOPs, MySQL

- Architected a scalable full-stack web application enabling recruiters to publish job openings and candidates to search, filter, and submit applications with role-based access control (RBAC).
- Developed robust backend services designed normalized MySQL schemas with optimized SQL queries and transactional integrity.

E-Commerce Online Flower Shop | Java, OOPs, MySQL

- Built an end-to-end e-commerce platform allowing users to browse flower catalogs, manage dynamic shopping carts, and execute mock checkout transactions.
- Implemented secure input validation and exception handling; connected frontend with backend database operations via MySQL.

Smart Travel Assistant Platform | Java, OOPs, SQL, Figma

- Engineered a travel planning and exploration application utilizing Java OOP design principles, collections, and data structures to deliver personalized destination recommendations and itinerary scheduling.
- Designed interactive UI/UX wireframes in Figma and developed full-stack modules with database integration for booking history and preference tracking.

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Azure Fundamentals (AZ-900):** Validated core cloud computing services, security, architecture, and governance concepts.
- Japanese Language Proficiency (NAT-Q5):** Demonstrated multicultural adaptability, dedication, and linguistic proficiency in beginner Japanese.
- NPTEL Elite Certification – Cloud Computing:** Certified by IIT Madras covering distributed systems, virtualization, and cloud infrastructure (Jul–Oct 2025).
- NPTEL Certification – Introduction to Internet of Things (IoT):** Certified by IIT Kharagpur on sensor networks, protocols, and edge connectivity (Jul–Oct 2024).
